1. INTRODUCTION

The telephone and data card is one of the facilities employees are entrusted with in order to enable them to perform their functions efficiently and effectively. To ensure that the cellular telephone and data card facility is utilised efficiently and economically, at all times, Mbhashe Local Municipality believes that policy guidelines should be introduced and implemented to ensure accountability and cost effectiveness. These guidelines should maintain uniformity throughout the Mbhashe Local Municipality and that employees who qualify in terms of criteria indicated in this policy should utilise cellular telephone and data cards for official purposes and be reimbursed by the Municipality. Data card connection refers to Mbhashe Local Municipality's computing systems that are linked from outside the perimeter internal network using Virtual Private Network technology.

2. PURPOSE

The purpose of this document is to provide for the policy and procedures according to which employees of the Mbhashe Local Municipality shall utilise the cellular telephone and data cards to facilitate the delivery of services to the relevant stakeholders in an efficient, economic and effective manner. Also ensure that devices are able to connect on the municipal network using Virtual Private Network. It also makes provision for criteria in terms of which cell phones and data cards shall be contracted, or utilised by the Mbhashe Local Municipality.

3. MANDATE

Section 62 (1) (c) (i) of the Municipal Finance Management Act, (Act no.56 of 2003), mandates the Accounting Officer of a municipality with a responsibility to managing the financial administration of the municipality, and must for this purpose take all reasonable steps to ensure, that the municipality, has and maintains effective, efficient and transparent systems of financial and risk management and internal control.

the work and the need for a data card, as a means of carrying out the job are to be the determining factors.

- In support of an employee's application for a data card. Fully motivated proof must be submitted to the relevant Senior Manager, to the effect that availing a data card is the most economical and practical instrument of accessing e-mails and internet, and that it will enhance the official's work performance.
- Any exceptions to the eligibility criteria or any other aspects of this policy will be at the Municipal Manager's discretion.

8.2 STATEMENTS

The data card access encompasses two options where either both voice and data can be used or data only can be used of which the latter is Mbhashe Local Municipality's choice. The following shall apply in respect of such data card access:

8.2.1 The user will be allocated data bundles that will enable him/her to connect to Mbhashe Local municipality's network and systems remotely depending on nature of work. The bundles have monetary value and limit usage to the amount of data available in the bundle;

8.2.2 As detailed above these devices allow for e-mail and internet access. Data card access is currently limited to 2GB or to current package the municipality chosen from the respected service provider offering the service. Users are to have a valid reason once these Giga-bytes are depleted and request for additional bundles.

8.2.3 Data cards and/or SIM card are obtainable from ICT section within the Corporate Services Office on the approval of departments HOD's and Municipal Manager. All costs involved will be for the Corporate Service department located in ICT section account.

8.2.4 Data usage reports/statements can be obtainable on Section Managers and/or HOD's request;

8.2.5 Data card contracts will be reviewed every 2 years;

8.2.6 Data cards and services may be stopped at any given point on the request of a HOD's. In such instances the section or department concerned shall continue to be responsible for the costs of the contract for the remainder of the contract period.

8.2.7 When the two-year contract period expires, then:

- The user may keep the data card;
- If he or she is still eligible for the service, an up-grade will be applied for through the ICT section and a new two-year contract will be concluded and a new data card will be allocated to the user concerned.

8.2.8 Users allocated data cards assume responsibility for the repair or replacement of these items due to negligence. It is therefore up to the users to engage ICT on the correct use of these items. In instances where data cards are stolen or lost:

8.2.9 The SIM card shall be replaced by the municipality and the modem each user will have to buy it for themselves.

8.2.10 Data cards services are to be solely used to access Mbashe Local Municipality's network remotely where no other means possible for such access special permission is granted provided Mbashe Local Municipality's internet restrictions are met.

8.2.11 Mbashe Local Municipality has the right to monitor and manage usage of the data card and devices;

8.2.12 The ICT unit must configure data card devices for use on the Municipality network;

8.2.13 When an employee resigns, data card allocated to him/her falling under the two-year contract must be returned to ICT with its peripherals and accessories. Confirmation of such return must be indicated on the standard form supplied by Human Resources; and

8.2.14 On the resignation or replacement of an employee of any post, the existing contract with the service provider for that position will be passed on to that new employee taking up the said post. The new employee will therefore inherit all the devices, peripherals and accessories linked to the contract.

8.3 HOW THIS WILL BE APPLIED

- This policy will be applied automatically to all employees and councillors issued with data cards.
- Reports generated by the data card system will highlight possible violations. Violations include misuse of the data card device, attempts to sell the data cards and visiting prohibited internet sites using the data card connection internet services, making voice calls using the data card if the municipality agreed that the data card be only used for Internet and municipal systems. Data card report or statements will be used to indicate possible violations.
- The manager of the employee alleged to have violated this policy shall be responsible for ensuring that disciplinary proceedings are commenced with in terms of Mbashe Local Municipality's disciplinary procedure and policy. A failure on the part of such manager to take the necessary steps regarding disciplinary action shall in itself be grounds for disciplinary action being instituted against such manager.
- Users may assist with upholding the policy by reporting any violations via the grievance procedure;
- Managers must ensure that all their employees using data cards in terms of this policy, are made aware of the contents of this policy; and
- Managers are required to apply the policy to subordinates reporting to them.

8.4 CONTROL OF DATA CARDS

Asset management must ensure that data cards asset register is developed. All data cards must be captured on the asset register.

8.5 LOSS OF DATA CARDS

- Lost or stolen data cards must be reported to the South African Police Services within 24 hours and a Case reference number obtained from them.
 - The incident must be reported to the relevant Manager and ICT section in writing.
